

# Rotary Club of Glenrothes environmental impact in the last few years 2021/2022

**Riverside Park, Glenrothes**  
Why not come along and join in with other community minded souls and help us keep the wonderful Riverside Park clean.

## Litter Picks

Rotary club and FORP volunteers taking a moment to recover after bringing back a mountain of litter between them.

21 March 2021 ·

## Improvements Inspection Walk

On Monday night Seven Rotarians joined forces with members of The Friends of Riverside Park, (FORP) as they completed walks round the Riverside Park and surrounding 10 walkways. Their overall aim was to identify any issues or works needing undertaken to bring the Riverside Park up to a safe and satisfactory standard. 4 August 2020 ·

## Weeding in the Park

A lovely day for Rotary club and FORP volunteers to help keep the park looking good by weeding some of the flower beds near the pond area. Well done to them all.

They were also thanked via email by the park supervisor who is understaffed currently due to holidays and self isolation due to the virus.

## Orchard Pruning

Rotary joined FORP, and public volunteers at the Riverside Park orchard on Monday evening to do some summer pruning of the plum trees. Lovely evening for this essential, but enjoyable work. Thanks to everyone who turned up.

## Planting Flowers

The 3rd and final group saw the Rotary Planter project completed, with Rotarians Iain Oates, Chantal Mrimi and soon to be new Glenrothes Rotarians, Doreen Gray and Kay Johnson completing the finishing touches. Incoming club President Brian Johnson watering the plants in. Now looking forward to a spectacular display.

## **Planting hedging saplings in the wildlife garden.**

Frolics in the rain!

Thanks go to Iain Oates, David Cooper, Brian Johnson and Geoffrey Sampson of Rotary and Bidy of Friends of Riverside

Scheme promoted by the Woodlands Trust and under the umbrella of the Rotary environment campaign with additional saplings supplied by Bidy Gray
